11 How Does an Agent View Status of a Life Event he/she submitted on Behalf of an Individual?

11.1 How Does an Agent View the Status of a Life Event he/she submits on Behalf of an Individual?

Answer:

When an agent submits a life event on behalf of an individual, he/she will be able to see the status of that life event in the status history for that application.

An agent can upload documents using the View Documents link. He/she will not be able to see any notes added by the underwriter for the life event. However, the applicant will be able to see the notes on the Individual account dashboard using his/her account login and password.

If the user has never set up an account, the agent can use the “Send Account Setup Email” to send the applicant an email with a link and instructions on how to setup a user account. The user will then be able to see the Life event status, any notes added by the underwriter, and upload additional documents on their user dashboard.
12 Agent/Carrier/Underwriter Monitoring
Individual Members, Individual and
Group Applications 834 Status

12.1 The Individual Application has been in Pending Status for more than 2
days, what do I do?

Answer:
On the agent/carrier portal go to Individual -> Applications -> filter by pending and check to see if there are any items pending with a date older than the expected TPA turnaround time. If there are applications that fit the scenario described. Click on the dropdown next to the wrench to view the status history. Look at the last action that was done and make note of the file name to reference. Follow up with the TPA to see if the 834 was received or 999 file sent back. If the 999 file was sent back, submit an issue via Issue tracker to Online Insight to have a staff member research the issue.

12.2 The Individual Member has been in Current Pending Update Status for more than 2 days, what do I do?

Answer:
